

## OHSU KNIGHT CARDIOVASCULAR INSTITUTE

# Beaverton Cardiology Clinic

The Beaverton Cardiology Clinic provides comprehensive care in general and interventional cardiology, electrophysiology, diagnostic cardiac imaging and consultation services, all in a convenient, central west side location. Our board-certified specialists partner with you to care for patients who have a risk of cardiovascular disease or established cardiovascular conditions.

## What we provide

Specialists at our clinic offer a complete array of cardiac health services, including:

- Complete diagnostic imaging services (including ECHO and Holters)
- Consultation on treatment and imaging
- Electrophysiology, general and interventional cardiology care
- Laboratory services
- Medication consultation
- Pharmacy services
- Heart disease prevention
- Treatment of common cardiovascular problems

By bringing our specialists to the west side, we aim to partner with you to help treat your patients' cardiac needs, all in a location that's close and easily accessible to them.

## Our approach

The OHSU Knight Cardiovascular Institute is an integrated center of translational research, clinical care, education and disease prevention, which is dedicated to becoming the world's best at translating research into clinical innovations to benefit patients by attacking heart disease from every angle, before conception and throughout a person's lifetime.
