

A photograph of a group of people in a meeting. In the foreground, a woman with short blonde hair, wearing a grey sleeveless top and a pearl necklace, is smiling and gesturing with her hands. To her left, a woman with dark hair and glasses, wearing a bright yellow top, is looking towards the camera. In the background, another woman is visible. On the right, a man with a beard, wearing a white shirt and a blue tie, is looking towards the woman in the foreground. The setting appears to be an office or a library, with bookshelves and a clock visible in the background.

Clinical Faculty

The clinical faculty represents the volunteer teaching force of the department. In the very early years, the clinical faculty provided dermatology education for medical students. As time and the medical school progressed, clinical faculty were invaluable teachers in the dermatology clinic settings, staffing the resident clinics. Today, the clinical faculty (now named affiliate faculty) still provides volunteer staffing of clinics at the Veterans Affairs Medical Center dermatology clinics, unknown sessions, and also support the weekly morphology conferences, among other activities.

The department would like to thank the Chiles Foundation for providing a portion of the support needed to produce this document.

Special thanks to Lee Lewis Husk for her fabulous storytelling and Charlotte Woodward for her dazzling design. Their combined talents allowed this story to be told in form and presentation beyond what I had imagined.

Thank you for your efforts!
