

SHARE YOUR STORY:

MAKE YOUR VOICE HEARD AND HELP OTHER VETERANS

HELP CREATE A MORE VETERAN-CENTERED APPROACH TO FIREARM INJURY PREVENTION

We Want to Hear Your Story

Oregon Health & Science University (OHSU) and the Portland VA are leading a research project about Veteran experiences with firearm injuries sustained outside of active military service. We would like to hear from Veterans and their caregivers about their experiences with firearm injuries, as well as how these injuries can be prevented.

Make Your Voice Heard

By sharing your story, you will help other Veterans gain important knowledge about when and how firearm injuries occur. You will also help us better understand what Veterans think is most important in preventing firearm injuries, promoting a more Veteran-centered approach to firearm injury prevention. Because confidentiality is important, you have the choice to remain anonymous.

To Find Out More about This Project

Please contact project staff via email healthexperiences@ohsu.edu or phone 503-418-0898. You may also submit your information online: <https://redcap.link/VeteransHelpingVeterans>

If you are a Veteran who has experienced a firearm injury outside of active military service, please consider sharing your story

Participants Will:

- Complete a one hour confidential remote (video) interview
- Receive a \$75 gift card
