ACCESS:
Checklist for Autism Identification

Use the following checklist as a guide to determine which members of your team will complete the key components of an interdisciplinary autism evaluation.

- [ ] Coordination of the referral and the assessment process

- [ ] Diagnostic Interview (developmental and medical history)

- [ ] Standardized autism-specific observation measure (e.g. ADOS, CARS-2)

- [ ] Unstructured observation of child (e.g. with peers)

- [ ] Standardized adaptive skills measure (e.g. ABAS-3, VABS-3)

- [ ] Developmental assessment (e.g., communication, cognition, sensory, social emotional)

- [ ] Medical Exam (including dysmorphology)

- [ ] Audiology Testing

- [ ] Team staffing to share results and confirm diagnostic and eligibility recommendations

- [ ] Meet with family to share evaluation results and recommendations
