

# OHSU PBM SERVICES COMMERCIAL STANDARD FORMULARY

## Introduction

The formulary displays coverage of drugs for plan members when filled at an in-network pharmacy. Drugs are reviewed by a team of pharmacists and physicians who review drugs for safety, effectiveness, and value. The formulary is reviewed regularly and is subject to change.

## How to Search

To search for drugs on the formulary, you can search alphabetically by drug name or by use.

- Drug Name: Drugs are listed alphabetically at the end of the formulary
- By Use: Drugs used to treat the same or similar conditions are listed together

## Tier Description

Tier levels are assigned to drugs that correspond with your cost share for the drug. Generally, drugs listed at lower tiers cost less than drugs listed at higher tiers.

Tier	Description
1	Valued generic drugs and brand drugs
2	Preferred generic drugs
3	Preferred brand drugs and non-preferred generic drugs
4	Non-preferred brand drugs
5	Preferred specialty generic drugs
6	Preferred specialty brand drugs and non-preferred specialty generic drugs
7	Non-preferred specialty brand drugs

For a complete description of your cost share at each tier, refer to your pharmacy benefits handbook.

## Limits & Restrictions

Drugs that have limits or restrictions are listed in these ways:

Indicator	Description
Prior Authorization (PA)	Prior approval is needed from your plan before this drug is covered.
Step Therapy (ST)	Another drug or series of drugs must be tried before this drug is covered by your plan.
Quantity Limit (QL)	A limited amount of this drug is covered without prior approval.
Age Limit (AGE)	This drug is only covered for certain ages.
Specialty Drug (SP)	This drug must be filled at a specialty pharmacy.
Preventive Care (ACA)	This drug is covered under the Affordable Care Act at no member cost when prescribed by a licensed health care provider and specific criteria is met.

## Authorization/ Exception Request Process

To request coverage for a drug that is not on the formulary or has limits or restrictions, your provider will need to submit an Authorization Request Form with supporting clinical documentation. This form can be found on the OHSU PBM Services website. Once the request is received, it will be reviewed to determine whether the drug is able to be covered.

## Pharmacy Network

Most drugs on the formulary may be filled at an in-network retail or mail-order pharmacy. Drugs with a specialty indicator must be filled at an in-network specialty pharmacy. To locate pharmacies in-network refer to the Pharmacy Locator tool on the OHSU PBM Services website.
